PROFILE

I am a Software Developer with a passion for exploring new technologies and a commitment to hardwork.

EXPERIENCE

Software Developer Intern, Level Up Technologies  2024-06 – 2024-09 | Bhopal, India

Level Up Technologies is a leading company driving digital transformation through innovative solutions.

Key Responsibilities & Achievements:

- Developed and maintained responsive web applications using **React.js** and **Tailwind CSS**, enhancing user experience and design consistency.
- Contributed to a team of developers, fostering collaboration and **improving project delivery efficiency by 20%**.
- Optimized web applications to achieve a **15% faster load time**, ensuring scalability and seamless performance.
- Worked closely with backend developers to integrate frontend components, reducing integration bugs by **15%** and streamlining workflows.

PROJECTS

System Monitor, Desktop application  2024-11 – 2024-12

Description: Developed a Python-based System Monitor app to track system performance in real-time with dynamic visualizations.

Technologies: Python, Tkinter, ttkbootstrap, psutil, matplotlib

Download Link: Download System Monitor 

Coin Chaser, Indie Game Developer  2024-09 – 2024-10

Description: The game is designed and created by a single indie developer using the Godot Engine.

Technologies: Godot Engine, GDScript (Godot's scripting language)

Download Link: Download Game 

Chat-Ai, AI Chat Bot  2024-11 – 2024-11

Description: Developed an AI-powered chatbot web application in React.js, integrating OpenAI GPT for natural language processing.

Technologies: React.js, CSS, JavaScript, OpenAI API, Git, Github

GitHub: Chat-AI GitHub Repository 

Quotes, Quotes-App  2024-10 – 2024-12

Description: : Built a Quotes App in React.js to display inspiring quotes from an API. The app features a clean interface and is deployed, but some functions may not work due to an outdated API key.

Technologies: React.js, CSS, JavaScript, Quotes API, Git, GitHub
